As we begin a return to full service dining our commitment and dedication to your safety could not be any stronger. You will notice some new protocols during your visit. Thanks to the PPP loan we were able to rehire all of our staff four weeks prior to phase two re-opening. We have used this time to not only serve take out, but also to train and educate our team on every aspect of safe service. We have incorporated CDC and industry videos, specific role playing, and cross contamination drills. Our kitchen staff may be behind the scenes they are using all necessary PPE's, properly handwashing and prescribed glove changes.

We have implemented the following new protocols in the restaurant and delegated specific employees to safely perform guest interaction and sanitary food handling.

*Due to these precautions, service times will be longer than normal. We appreciate your patience as we provide a safe, comfortable environment for you to enjoy.*

- All contact and non-contact surfaces will be frequently sanitized.
- We have rearranged our inside and outside dining areas to ensure proper social distancing and adhere to local and state capacity requirements.
- Sanitizer is provided at our entrance and on all tables.
- All menus are now laminated and sanitized before and after use, **or you may browse our menu on your phone with a provided QR code (see above).**
- Handwashing is the best prevention of contamination; gloves will be worn by kitchen crew directly handling ready to eat food.
- A To-Go team will only handle the proper boxing and bagging of each order while providing a contactless curbside pick-up option or through our dedicated pick-up window.
- The Health and Safety team is solely here for the proper cleaning of tables, restrooms, silverware, plates, glasses, and all surfaces of the restaurant.
- Any employee who exhibits signs of illness or has been in contact with someone who has been ill, will be quarantined for a minimum of 14 days.

Adapting in these times is so important for us here at South Beach Grill, from our staff to you as our guest. Our promise to safely serve you during this time is an agreement with you, our beloved patrons, to keep everyone safe, so we cordially ask that you not dine-in if you are not feeling well.

We cherish your support in choosing to dine with us during these unprecedented times. We understand it is a tough decision whether you choose to take advantage of our curbside pickup, to go, or dine-in with us. We promise to strive for your safety and comfort, and as always provide the great service and food that you know and love from South Beach Grill.

We look forward to serving you! **WELCOME BACK!!!!**
